KMC Hackathon

Project Title: Important Dates Reminder

Team Name: wonderful

Team Members: Prayukta Poudel

Mentor: _____

1. Abstract

As because we are busy in our works we may forget some of the important dates .Missing some important dates may lead to further stress and poor time management .The important date reminder web application help user to make them remember the important dates.

2. Problem Statement

In today's fast-paced life, students and professionals often forget important dates such as exams, assignment deadlines, or meetings. Missing these dates leads to stress, poor time management, and last-minute rush. There is a need for a simple, easy-to-use tool that can track important dates, notify users in advance, and help them plan their tasks efficiently.

3. Existing System

At present, user mostly depend on manual methods like writing on dairy, marking on calendar which may seem time consuming .People may even forget about the mark which may lead the people for stress.

4. Proposed Solution

I developed this program because many people are having difficulty to remember the most important dates in their life such as job appointment .The application is user friendly .Users can add events along with the timeline, View how many days are left and we can get information about approaching date.

5. Objectives

• Tracks important date easily

• Shows information about upcoming event

• Reduces chances of forgetting deadlines

• User friendly and easy to access

6. Technology Used

Frontend: HTML, CSS, JavaScript

Devices: Laptop

7. System Wireframe

The following wireframes show the basic layout of the system interfaces.

```
----------------------------------------------------

|        Important Dates Reminder        |

----------------------------------------------------

| [Add New Event]                |

----------------------------------------------------

| Event Name     | Date      | Days Left | ⚠ |

|-----------------------------------------------|

| Assignment 1   | 12 Feb    | 3 days   |    |

| Exam Prep      | 20 Feb    | 11 days  |    |

| Project Demo   | 15 Feb    | 6 days   |    |

----------------------------------------------------
```

9. Advantages

• Reminds user of important dates

• Helps plan tasks efficiently

• Helps plan tasks efficiently

• Helps plan tasks efficiently

10. Limitations

• Helps plan tasks efficiently

• No log in or multiple user supports

• Doesn't sends automatic information

11. Future Improvements

• Sending automatic information

• Allow user accounts

• Add a sound alert

• Include process tracker for completed tasks

12. Conclusion

The **Important Dates Reminder** is a simple and effective web-based application that helps users keep track of important events and deadlines. By providing clear visual reminders and showing the remaining time for each event, the system reduces the chances of forgetting important dates.
